

Horizon™

You demand innovation, choice, flexibility,
and a smarter way of doing business.
MSB gives you all the advantages you want with
the Horizon, one of the most complete
multi-card and resource systems available.

The Horizon card management system is designed to meet your business needs. The system is a true multi-card, multi-issuer system. It allows you to manage all your multi-issuer cards from one central location. You can add new cards as they come and deactivate cards. You have a complete view of the cards across the various issuers and can track business usage.

How it works

The Horizon card management system is used to manage all your multi-issuer cards. It can get you the lowest possible cost for a multi-issuer card. The system provides a complete overview of all your multi-issuer cards. You can track business usage and track business usage.
