High Temperature Polyetheretherketone (PEEK) PAN-Ty® Cable Ties

PEEK Cable Ties are ideal for use in high temperature and harsh chemical environments. PEEK is a dimensionally stable material that offers an excellent tensile rating with an operating temperature up to 500°F (260°C). It is halogen free and has a UL94V0 flame rating, generating low smoke and gas on burn, contributing to improved workplace safety. It has excellent chemical resistance to most oil, organic and inorganic chemicals and is extremely resistant to high levels of gamma radiation for a long-term bonding solution. PEEK cable ties are part of the comprehensive offering of Panduit cable ties and installation tools.
