本課程已經 PMI 審核通過可核發 21 個正式 PDUs

國際計畫管理師(PgMP)課程說明：

Overview:

This training course enables program managers of both acquiring the knowledge, skills as well as tools and

techniques that are both important for their career, as well as enables them of attaining the PgMP designation.

The PgMP credential is PMI's first credential designed to demonstrate project and program management skills. To be

eligible for the PgMP credential, you must meet specific guidelines that objectively measure experience, education

and professional knowledge, and undergo a rigorous application process as well as three assessments. You also

must agree to adhere to the PMI Code of Ethics and Professional Conduct. The CAPM or PMP credential is not

prerequisites for the PgMP credential

Who Should Attend.

The following types of professionals can benefit from attending this training course:

- Managers of multiple projects, program managers.

- Project Managers wishing to advance their professions

- Managers of project managers

- Professionals interested in attaining their PgMP designation.

Please note that there is a specific prerequisite for this certificate. Please check the website

Course Materials:

- **The Standard for Program Management** is the reference for

program management from PMI. Understanding of this standard is important for

taking the PgMP exam.

- **The Standard for Portfolio Management** is the reference for

portfolio management. While the PgMP focuses on program management, however, the portfolio management standard has important knowledge necessary for program managers especially in the area of defining a program, which is part of the scope of the PgMP exam.

- Exercises and case studies.
- Sample questions.
- Program Management Professional(PgMp) Credential
